PRESIDENT

Dustin Crockett

Dustin Crockett has lived in Port Moody and the surrounding areas for over 25 years and has been involved with the Port Moody Soccer Club as a coach and team manager for multiple youth teams in both the recreational and high-performance programs for the last 6 years.

Having been involved on the field for a good portion of his time in the club, Dustin decided to get involved in the administrative side of the club to take some of his off-field experience in business administration, human resources management, and technology, to help add further improvements to the day-to-day functioning within the club, as well as to help create greater opportunities for learning and play in both the youth and adult programs on-field.

Dustin has expressed interest in running as the club president and has reached out to other club members to work together and build a board that will be focused on improving transparency, communications, community involvement, coaching support, representation across all the programs, and improving internal administrative issues such as strengthening the bylaws and constitution. Dustin is also committed to working to grow the club membership across the board, improving the club finances, and will continue to focus on creating more opportunities for members by pushing forward on the inlet field development.

I have 2 girls playing in the club at U18 and U17. Both are playing at the Metro level. This will be the third year for my older daughter and second year for the other. We actually live in Burnaby. I am looking forward to seeing improved communication between the club and its members, encourage better interactions among the staff, and equality and fairness between the boys and girls programs. I strongly believe that transparency in the financial records is an important starting point for the newly-elected Board. My goal is to turn Port Moody soccer club into a desirable place for all soccer players to enjoy the beautiful game

Deidra Vath

Over the last ten years I have been actively involved in local soccer as a parent and a team manager. This experience with two local clubs has given me insight into the benefits of a successful and proactive program. My personal expertise exists within team management, manager coordination, scheduling, referee organization, and event planning. PMSC is now in an opportune situation to advance youth soccer for both female and male athletes within the Tricities. I would like to be a part of creating a vision and initiating a program that focuses on conscientious planning, excellence in training, transparency, and lifelong enjoyment of the sport
